PROFESSIONAL SUMMARY

I am a highly experienced PHP Web Developer with over 10 years of experience in developing and maintaining web applications. My biggest strength lies in my ability to develop innovative solutions that solve complex problems. I have extensive experience in designing and developing websites using PHP, CodeIgniter Framework, Yii 1 Framework, Bootstrap, HTML, CSS, JavaScript and MySQL. My experience also includes developing object-oriented programming techniques and debugging applications. I have also developed custom scripts for clients to automate processes. My biggest achievements include launching several successful websites that generated high revenue for the client. I am confident that my skills in web development combined with my strong communication, problem-solving and analytical skills can help me make a valuable contribution to any organization.
